WORK EXPERIENCE

Backend Developer (ASP.NET)
28/04/2025 – Current

BRG (brg.it) · Cesenatico, Italy

- Design and maintain scalable backend APIs using ASP.NET Core and Entity Framework Core.
- Architect and optimize Microsoft SQL Server databases for high-performance workloads.
- Deploy and manage cloud services on Microsoft Azure.
- Contribute to the architecture and backend development of Hoteldoor and Doory AI.

Full-Stack Developer
02/09/2024 – 20/04/2025

Cooperativa Sole · Gatteo, Italy

- Developed full-stack management software using C# and Angular.
- Designed and implemented RESTful APIs and centralized authentication with Keycloak, OAuth2, and OpenID Connect.
- Architected frontend and backend pipelines for efficient enterprise data handling.
- Integrated single sign-on (SSO) and role-based access control (RBAC) across internal platforms.

Full-Stack Developer
30/10/2023 – 23/08/2024

EGAF Edizioni SRL · Forlì, Italy

- Developed and modernized internal data management software using C# and Angular.
- Built cross-platform web, desktop, and mobile applications with Ionic and Capacitor.
- Designed REST APIs to support system integration, scalability, and workflow automation.
- Implemented single sign-on (SSO) authentication using Keycloak, OAuth2, and OpenID Connect.

Trainee Developer
05/06/2023 – 05/09/2023

UniBo · Campus di Cesena · Cesena, Italy

- Designed and implemented an automated deployment platform using Ansible and Docker Swarm.
- Integrated Active Directory and Radius authentication and prototyped a FreeIPA integration PoC alongside AD.
- Configured Teleport and Nginx with Let's Encrypt for secure remote laboratory access and SSL management.

EDUCATION & TRAINING

Bachelor's Degree in Computer Engineering & Computer Science
28/07/2020 – 17/07/2025

University of Bologna · Via Cesare Pavese 50, Cesena, Italy

- Dissertation: "Teleport, a service for secure access to laboratory PCs and campus applications."
- Focus on distributed systems, software engineering, computer networks, and secure infrastructure.

TECHNICAL SKILLS

Programming Languages

C# · TypeScript · JavaScript · Python · Kotlin · Java · Go · C · Dart

Backend, Web & Mobile Frameworks

ASP.NET Core · Entity Framework Core · Angular · React · React Native · SvelteKit · Flutter · Ionic · Capacitor

Databases & Caching

Microsoft SQL Server · PostgreSQL · MySQL · Redis

Cloud, DevOps & Identity

Microsoft Azure · Docker & Docker Swarm · Ansible · MinIO · Keycloak · OAuth2 · OpenID Connect (OIDC) · Teleport · Nginx & Let's Encrypt

Systems & Directory Services

Git · Active Directory · Radius · FreeIPA · Linux · macOS · Windows

LANGUAGES

Italian · Mother Tongue

Native proficiency across all communication contexts.

English · B2 Independent User (CEFR)

Listening B2 · Reading B2 · Spoken Production B2 · Spoken Interaction B2 · Writing B2

ENGINEERING COLLABORATION

Clear communication across cross-functional teams · Team-oriented Agile & Git collaboration · Experienced in documenting and presenting technical solutions to non-technical stakeholders.
